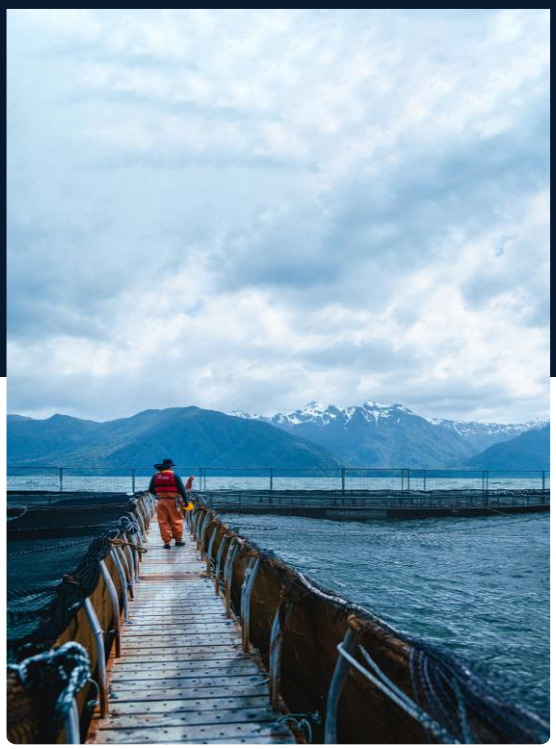
BLUMAR

Corporate Energy Efficiency Policy



Blumar S.A. and its subsidiaries Salmones Blumar S.A., Salmones Blumar Magallanes SpA and Pesquera Bahía Caldera S.A. are committed to promoting best practices to achieve sustainable development through comprehensive management of all the company's processes, thus including those best practices into the daily tasks of our employees.

Sustainability strategy

The company collaborates with its stakeholders, which include employees, clients, investors, suppliers, contractors, communities, the environment, society and regulatory entities, to create economic, social and environmental value in the long term. In addition, we have a Sustainability Strategy based on 4 pillars: Efficiency and Creation of Value, Relationships of Trust and Collaboration, Environmental Commitment and Innovation and Adaptability. This policy is linked to the first pillar Efficiency and Creation of Value.

Blumar S.A. is committed to promoting efficient and responsible energy use, supporting energy management and the continuous improvement of the company's energy performance.

BLUMAR

Corporate Energy Efficiency Policy

The company has established the following commitments:

1. Define **relevant energy goals and targets,** and constantly review and update them.
2. Provide the **information and resources** needed to meet energy goals and targets.
3. Comply with **legal requirements** and other requirements related to energy efficiency, energy use and energy consumption.
4. Support the **purchase** of energy efficiency services and products that impact energy performance.
5. Support **design activities** that involve improved energy performance.
6. Seek **continuous improvement** of the company's energy performance and its Energy Management System.
7. Periodically review and update this energy policy.
8. Promote energy efficiency in the company's processes and at the facilities and encourage the participation of employees, suppliers and contractors in responsible energy management.

These points strengthen the company's commitment to sustainability and responsible development, focusing on energy efficiency and continuous improvement.

In conclusion, Blumar S.A. and its subsidiaries are committed to working continuously to improve the company's energy performance and reduce its carbon footprint, thus contributing to a more sustainable future for our clients, employees and their environment.
